

Placement offers

We welcome applications for placements in our school. We value the freshness of students coming in and are pleased to show all we do here! We also offer presentations to Higher Education establishments whose students we host.

We offer a variety of types of placement.

- 3-week teacher training placements
Students are enabled to develop independence, leading to planning for specific pupils, keeping records, making resources and supporting other staff
- Regular weekly visits or short-term placements from BA students
Students are attached to a teacher in a particular area so they have guidance and get to know the area well.
- Work experience students in Y11 and post-16.
As a Southwark school, we prioritise Southwark schools for work experience placements, though we will consider Lambeth schools as well. We can take up to 6 work experience students in a school year, and bookings begin in September of any school year. We need the school to contact us with references for the students.

Allocation of places

We take up to two teacher training placements per term.

We take BA students for regular weekly sessions or short term placements, assuming we have space on the dates required.

Procedures

All degree students need an enhanced DBS check before starting, and this needs to be done via the student or the college/university. They also need a reference. They will need to bring photo ID and read the safeguarding policy before starting.

All students need to fill in application forms as fully as possible and email them to office@evelina.southwark.sch.uk

We always interview degree students before offering placements. Acceptance for interview is not an offer of a placement.

Dress is smart casual.

Additional information

Should you require further information please email office@evelina.southwark.sch.uk.

We will indicate on the website when we are at capacity for any type of placements.
