ACCEPTABLE USE POLICY AND AGREEMENT

Evelina Hospital School

Acceptable Use Policy and Agreement

Introduction

The School provides a range of ICT resources which are available to staff members and governors. In order to ensure the safety of staff, governors and pupils, it is important that all staff members and governors follow the guidelines detailed below.

This policy aims to:

- Promote the professional, ethical, lawful and productive use of the School's ICT systems and infrastructure;
- Define and identify unacceptable use of the School's ICT systems and external systems;
- Educate users about their data security responsibilities;
- Describe why monitoring of the ICT systems may take place;
- Define and identify unacceptable use of social networking sites and school devices; and
- Specify the consequences of non-compliance.

This policy applies to staff members, governors and all users of the School's ICT systems who are expected to read and understand this policy. To confirm acceptance of the policy, users will sign an Acceptable Use Agreement which is attached to this policy. Breach of this policy may result in disciplinary action.

The use by staff and monitoring by the school of its electronic communications systems is likely to involve the processing of personal data and is therefore regulated by the Data Protection Act 2018, together with the Employment Practices Data Protection Code issued by the Information Commissioner. Staff are referred to the School's Data Protection Policy for further information.

If you are in doubt and require clarification on any part of this document, please speak to School Business Manager.

Provision of ICT Systems

All equipment that constitutes the School's ICT systems is the sole property of the School.

No personal equipment should be connected to or used with the School's ICT systems without authorisation from the Headteacher. Users must not try to install any software on the ICT systems without permission from the Headteacher. If software is installed without permission, it may cause extensive damage to the ICT systems and users could be held personally liable for any costs incurred in rectifying the damage.

Headteacher has overall responsibility for purchasing and/or allocating ICT equipment to individuals. Individual laptops/desktop computers or ICT equipment may be removed at any time and without prior warning for regular maintenance, reallocation or any other operational reason. Maintenance includes

Acceptable Use Policy and Agreement

but is not limited to, new software installations, software updates, reconfiguration of settings and computer re-imaging.

Network Access and Security

Users are not permitted to make any physical alteration either internally or externally, to the School's computer and network hardware.

A network user account will be created consisting of a username, password and an e-mail address for all new starters. All user account details are for their exclusive use. Staff are responsible for ensuring their password remains confidential and their account is secure.

All users are personally responsible and accountable for all activities carried out under their user accounts. Users must take all reasonable precautions to protect their user account details and must not share them with any other person, except to designated members of the Admin team for the purposes of system support. Users must report any security breach or suspected breach of their network, email or application account credentials to School Business Manager at sbm@evelina.southwark.sch.uk as soon as possible.

Users should only access areas of the school's computer systems to which they have authorised access.

When any computer is left unattended, it must either be logged off or locked. Activity that threatens the integrity of the School's ICT systems or activity which attacks or corrupts other systems, is forbidden. Users' internet activity must not compromise the security of the data on the school ICT systems or cause difficulties for any other users.

School Email

Under no circumstances should a pupil be allowed to use a staff computer account.

Where email is provided, it is for academic and professional use with reasonable personal use being permitted. Personal use should be limited to short periods during recognised break times and comply with this Acceptable Use policy. The School's email system can be accessed from both the School's computers and via the internet from any computer.
